

Access to Analog in weekends

During weekdays the cafe room is open and accessible for everyone at ITU, also after opening hours. Extra cleaning efforts are made by ITU and the baristas on shift.

Only baristas can be in Analog during weekends

Remember also to keep a high hygiene standard in the kitchen and cafe in weekends

In weekends, there is no extra cleaning and ITU management has decided that only baristas with card access to Analog are allowed to stay in the cafe room. This is so ITU can retrieve a list of people who have accessed Analog from the access system should they need to trace people in case of positive corona case.

You are still welcome to make yourself a cup of coffee as usual but non-baristas can not enter the cafe and must wait outside the cafe while you make your cup.
