

# Momsfritagelse

We in Analog have been advised by **Harboe Consult** back in 2020 to ask to be "*moms fritaget*". This can be achieved if we as a volunteering organisation can live up to some criteria from SKAT defined by the danish Law. Right now we do our finances as if we are "*moms fritaget*". This makes it easier for us to do accounting.

If you read this document in September 2021 or later. You might have some extra information that should be added here. But as of August 2021, we are still waiting on the final answer from SKAT regarding if we are "*moms fritaget*"
