

Espresso Machine

Starting the machine

1. Turn on the espresso machine by flipping on **the lowest two switches** on the front of the machine (right side).
2. The boiler will start heating up the machine. The display shows about 120°C when the espresso machine is ready.
3. Clean the porta filters and filter baskets with water and assemble the portafilters.
4. Place the porta filters in the group heads and let warm water run through them in 1 minute, to heat up the porta filters.
5. Open the steamers and let them steam for some seconds.

Voila. You're now ready to serve delicious espresso.
