

Responsibilities

What does a storage manager do?

The Storage Manager in Cafe Analog is one of the most important roles in the cafe. The Storage Manager's main responsibility is to ensure that the cafe always is supplied with coffee, milk, cups, and everything related to brewing coffee.

In cooperation with the Operations Manager, the Storage Manager has a large say in developing our product catalogue, maintaining relations with suppliers, and forecasting demand. The Storage Manager mostly works alone but get orders from the baristas when we're out of stock on a product and coordinate with the Sponsor Crew on purchasing of cups.

Revision #4
